

Andrea -

GREETINGS! And welcome, almost, to OLIN. If it wasn't obvious, I am your adviser. Since we won't meet probably until the Fall, I wanted to write to you to introduce myself.

You can find most of my academic interests on my web page:

<http://faculty.olin.edu/~mchang>

so I won't say anything more than I am a computer person.

I teach mostly 3rd year students in Computer Architecture and Digital VLSI.

I am relatively new to Olin, only being here since last year. The up side is that we'll be getting to know Olin together. Don't worry, though, we have lots of 2nd and 3rd year students to give us pointers.

So, turning to you for a moment...I, obviously, do not know anything about you at all.

So, as your first "assignment" from Olin, could you please introduce yourself in an email by August 15th?

Some things to include (please):

What are your goals for your time at Olin?

Do you have any thoughts about your first semester at Olin?

Anything else-questions, concerns, etc...

Finally, please feel free to contact me any time.

Email: mark.chang@olin.edu

Phone: 781.292.2559

AIM: mchangolin

See you in the fall!

PS: This letter is available here:
